

Cleaner

MAINTENANCE CLEANER

Gentle cleaning with the LOBA system

Highly concentrated, pH-neutral cleaner. Quick cleaning, dries without streaks. Its surface-protecting and extremely extensive cleaning performance make it a universal product.

- Excellent cleaning effect thanks to superb dirt-dissolving power
- Extremely economical concentrated, 1 litre of LOBA Cleaner yields up to 200 litres of ready-to-use cleaning solution
- Material-protecting and pH-neutral
- Can be used universally for all waterproof surfaces

Range of use:

Suitable for cleaning all water-resistant surfaces such as hardwood floors, cork coverings, linoleum, PVC, stone flooring and other floor coverings. Also suitable for cleaning doors, tiles, walls, window frames, glass and plastic surfaces.

Technical Data

ART.-NO.			
10175	1 l	12	480
	10 l	-	60

pH	6.5
Contents	anionic surfactants ≥ 5 - $< 15\%$, perfumes (LINALOOL, LINALYL ACETATE, MENTHOL, LIMONENE), preservation agents (METHYLCHLOROISOTHIAZOLINONE AND METHYLISOTHIAZOLINONE (3:1), POTASSIUM SORBATE)
Storage and transportation	36 months of storage stability. Store and transport between +5 to +25°C. Protect from frost.
GISCODE	GU73

Application

- Shake the contents well.
- Observe general and, if necessary, product-specific occupational health and safety regulations. Further information can be found in the GISCODE-related operating instructions which are available under www.wingis-online.de.

THINNER / MIXING

Water.

APPLICATION TOOL / APPLICATION RATE

LOBA mop. On large areas, use a suitable flat wiper mop or a scourer-vacuum machine. / Depending on the application, add approx. 50 - 100ml to a bucket with 10 l of water, sufficient for 100 m².

APPLICATION:

Mix the cleaning concentrate with water, using a higher ratio for heavier soiling. Damp-wipe the surface with cleaning solution using a suitable cleaning device.

Using too much water and allowing the product to work for too long can cause swelling of parquet and cork flooring and must therefore be avoided.

The product is also suitable for use in scourer-vacuum machines.

General guidelines

Cleaning of tools: Clean tools and equipment immediately with water.

The information in this document and all other advice and recommendations that we provide to help and assist the applicator are based on previous experience and relate to Spezial conditions. Because of the wide range of possible uses and conditions of application of our products, we do not relieve users from the need to carry out their own trials or to seek technical advice by speaking to the LOBA application engineering department. Observe the floor covering manufacturer's recommendations and the provisions of the current standards. Our liabilities and responsibilities are exclusively in accordance with our Terms and Conditions and are not extended by this information or by our advice.
